## TBLTF UK

### Supporting children with disabilities

The Tom Bowen Legacy Trust Fund UK (TBLTF) offers help to children who receive Bowen Therapy treatment.

We primarily provide grants for electrical, mechanical, sensory or electronic equipment, in support of a child's mobility or communication. We also assess applications to improve the physical, mental or emotional health of your child.

Applications are welcome from the parents, guardians, or Bowen therapists of any child who would benefit from a grant which may help them in their daily activities or with their educational or mental/emotional development.

The TBLTF was set up in 2010 and is managed in the UK by a group of volunteer trustees.
